Arne Duncan

U.S. Secretary of Education

“I’m a big fan of National Board Certification....What if every child had a chance to be taught by a National Board Certified Teacher? I think the difference it would make in our students’ lives would be extraordinary. As we move forward on this turnaround agenda nationally, I would love for National Board Certified Teachers to be at the forefront of that movement.”

NBCTs comprise approximately 3 percent of the national teaching force and have won over a third of the 2010 State Teacher of the Year Awards and 2009 Presidential Awards for Excellence in Mathematics and Science Teaching. Four of the five honorees of the National Teacher Hall of Fame and the 2010 National Teacher of the Year, Sarah Brown Wessling of Iowa, are NBCTs.

Karen Fredricks of Newark, 2008 Presidential Award for Excellence in Mathematics & Science Teaching

Courtney Fox of Wilmington, 2008 State Teacher of the Year

Judson Edward Wagner of Wilmington, 2007 Presidential Award for Excellence in Mathematics and Science Teaching

Karen Dipres of Newark, 2006 Presidential Award for Excellence in Mathematics and Science Teaching

Beverly Jordan of Newark, 2006 Presidential Award for Excellence in Mathematics and Science Teaching

- There are nearly 8,900 new National Board Certified Teachers nationwide—more than 82,000 teachers have been certified since the program’s inception.
- More than half of NBCTs are in Title I eligible schools as reported by the National Center for Education Statistics.
- States with the highest number of teachers achieving National Board Certification in 2009 were: North Carolina, Washington, South Carolina, Illinois and Florida. Fifteen states had at least a 20 percent increase in the number of 2009 NBCTs over the number of teachers who achieved certification in 2008.
- In a congressionally mandated report, the National Research Council (NRC) confirmed that National Board Certified Teachers advance student achievement and learning, stay in the classroom longer, support new and struggling teachers and assume other school leadership roles. The NRC acknowledged that students taught by National Board Certified Teachers make higher gains on achievement tests than students taught by non-board-certified teachers.
