How the Five Core Propositions and Standards Inform the Assessments and Scoring

The National Board Certification process is designed to collect standards-based evidence of accomplished practice. In all 25 certificate areas, candidates for National Board Certification must complete four components:

**Assessment Center Section**
- Component 1: Content Knowledge

**Portfolio Section**
- Component 2: Differentiation in Instruction
- Component 3: Teaching Practice and Learning Environment
- Component 4: Effective and Reflective Practitioner

**The Five Core Propositions**

The essence of the National Board’s vision of accomplished teaching is captured in the enduring document *What Teachers Should Know and Be Able to Do*, at the heart of which are the Five Core Propositions. The National Board Standards and the assessments for all certificate areas are founded on the following Five Core Propositions that clearly state the commitment, knowledge, skills, and dispositions demonstrated by National Board Certified Teachers (NBCTs):

- Teachers are committed to students and their learning.
- Teachers know the subjects they teach and how to teach those subjects to students.
- Teachers are responsible for managing and monitoring student learning.
- Teachers think systematically about their practices and learn from experience.
- Teachers are members of learning communities.

**The Standards and Their Role**

The [*National Board Standards*](#) for each certificate area represent a professional consensus on the unique aspects of practice that distinguish accomplished teachers in that field and developmental level. Cast in terms of actions that teachers take to advance student learning, these Standards are grounded philosophically in the Five Core Propositions. Each Standards document is developed by a committee that is broadly representative of accomplished professionals in that field and from across the country—primarily practicing classroom teachers. Other members are typically university professors, experts in child development, and teacher educators.

The Standards for each certificate area are the sole basis for the assessment specifications that frame both the assessment center exercises and the portfolio components. The National Board develops Standards-based assessments and awards certification to teachers who demonstrate an accomplished level of knowledge and practice in relation to the Standards for each certificate area.
Scoring Rubrics

Your responses are evaluated and scored through the lens of the scoring rubrics, which are derived from the Standards and made available to you in your component instructions. As assessors identify the evidence in your responses, they use their training to judge your performance solely on the basis of the criteria established by the Standards and embodied in the rubrics.

Your response to each constructed response item and the evidence you submit for your portfolio components are scored holistically, in that an assessor must look at the response as a total work and award a score based on the best overall match with a level of the rubrics.

The Standards serve as the basis for the following materials used in the scoring process:

- instructions for each portfolio component and constructed response item
- answer keys for the selected response items
- scoring rubrics for each portfolio component and constructed response item that describe performance characteristics at four levels
- benchmarks for each portfolio component and constructed response item that are actual candidate performances selected to demonstrate the characteristics described in each level of the rubrics
- standardized feedback statements assigned to portfolio components that receive a score less than 3.75

Assessors and Training

The assessors are National Board Certified Teachers or other teaching professionals in your certificate area who have met required eligibility and experience requirements and who have successfully completed a rigorous training program rooted in the National Board’s Standards and scoring guidelines. The training regimen begins with a careful study of the Architecture of Accomplished Teaching, found in the Standards. This framework of how teachers think about teaching illustrates that teachers do not make decisions in a linear process, but that teachers move in and out of each stage as needed to make decisions that impact student learning. Next, assessors review the instructions for the particular constructed response item or portfolio component. After understanding what candidates are asked to do, assessors focus on the Standards, and then examine and discuss the rubric and benchmarks (a set of specially selected, expert-scored cases designed to exemplify each score level that assessors use as a standard set of references throughout training and scoring). Assessors are trained to score holistically, looking at the response for its overall quality and evaluating the work as a whole.

Assessors practice applying scores at each rubric level. Trainers present responses that expert assessors have previously scored, without sharing the awarded scores. Assessors then independently score these cases. During each training session, trainers collect and log assessors’ scores, announce the overall results to the group, and lead a group discussion to calibrate assessors to award scores to the appropriate rubric levels.

The training process for assessors is extensive and rigorous. This training includes a qualifying step in which potential assessors must demonstrate their ability to evaluate candidate responses fairly and accurately, using the Standards and scoring rubrics as their criteria. Trainers evaluate the assessors’ work on the practice and qualifying cases. Those who successfully complete the training and meet the qualifying criteria move on to scoring candidate performances. Assessors are then evaluated and monitored carefully throughout the scoring process.
Bias-Prevention Training

National Board assessors are trained to recognize and minimize factors that might cause bias in scoring decisions. Assessors participate in bias-prevention training that highlights issues such as potential personal biases, professional preferences about teaching practices, and stylistic biases. Throughout the training process, assessors are reminded that scoring must be based on the evidence presented in the candidates’ submissions and responses. Assessors, aware of the effort and commitment involved in this assessment and of the high stakes for candidates, score candidates’ constructed response items and portfolio components based solely on the written responses/evidence submitted.

It is important to note that the National Board does not advocate any one particular approach to teaching. All candidates who achieve National Board Certification must show evidence of strong analytical skills and ongoing reflection in their teaching practice.

The National Board for Professional Teaching Standards is dedicated to continually evaluating its assessments and the assessment process. Before an assessment becomes nationally available to candidates, the National Board conducts field tests in which constructed response items, selected response items, and portfolio components are completed and scored. This process supports the National Board’s commitment to developing, administering, and scoring assessments in a manner that is reliable, accurate, and fair.
How Is the Assessment Scored?

Certification Components and Sections

Candidates for National Board Certification are required to complete four components categorized into two sections: the assessment center section (which is made up of the selected response item part and the three constructed response items of Component 1) and the portfolio section (which is made up of Components 2, 3, and 4).

- **Component 1: Content Knowledge** is the computer-based assessment center component that consists of three constructed response items and 45 selected response items. Forty of the 45 selected response items are scorable and contribute to your score, and five interspersed items are field test items that do not contribute to your score. The parts of Component 1 make up the assessment center section.

- **Component 2: Differentiation in Instruction, Component 3: Teaching Practice and Learning Environment, and Component 4: Effective and Reflective Practitioner** are the portfolio components that make up the portfolio section.

Scoring Selected Response Items

Selected response items are machine scored. One point is awarded for a correct answer and zero points for an incorrect answer. There are five interspersed field test items that do not contribute to your score. For the selected response items, the number of non-field test items answered correctly will be converted to and reported as a score between 0 and 4.25, the rubric score scale. The conversion standardizes the meaning of performance across certificate areas and across all four components of the assessment. The National Board has a policy not to release the conversion tables.

Scoring Constructed Response Items and Portfolio Components

Assessors will score your responses on the Component 1 constructed response items and all the portfolio components (Components 2, 3, and 4) using a 12-point rubric score scale that ranges from 0.75 to 4.25. The score scale is based on four primary levels of performance (Levels 4, 3, 2, and 1), with plus (4+, 3+, 2+, 1+) and minus (4–, 3–, 2–, 1–) variations at each level as shown below.
### The highest and lowest assigned rubric scores for a constructed response item or a portfolio component are 4.25 (4+) and 0.75 (1−), respectively; however, a score designation of zero is possible (see “Score Designations of ’0’ (Zero)” in this document).

- Scores in Level 3 and Level 4 represent accomplished teaching practice.
- **A score of 2.75 is the lowest rubric score in the range of clear evidence of accomplished teaching practice.**
- Scores in Level 1 and Level 2 represent not-yet-accomplished teaching practice.

**IMPORTANT:** A Level 3 or Level 4 performance is not required for each component and constructed response item. An accomplished performance on one component may compensate for a less-than-accomplished performance on another component as long as all of the score requirements are met. There are multiple requirements all candidates must meet in order to earn certification. These are described in more detail in the “Requirements for Achieving Board Certification” section of this document.

You can review the complete set of rubrics for your certificate area found in your certificate-specific Sample Items and Scoring Rubrics for Component 1 and your certificate-specific Portfolio Instructions and Scoring Rubric for Components 2, 3, and 4. By reading the overarching statement for each level of the rubric, you can see the gradations between responses that meet the National Board performance standard and those that do not.
Note: If you do not follow the rules and guidelines for developing, formatting and submitting component materials, it could have a negative impact on your score by limiting the evidence that assessors have to score. For example, video recordings should represent different units, not have any non-allowed edits, and clearly show interactions between you and the students as well as among the students. Also, component materials should follow formatting specifications.

Scoring Procedure for Constructed Response Items and Portfolio Components

▪ For first attempt:
  ▪ Constructed response items are scored by two independent assessors (i.e., they are double scored).
  ▪ Portfolio components are randomly selected for double scoring. Certification candidates will have at least one of their three portfolio components double scored.

▪ For retake:
  ▪ Each constructed response item and portfolio component from a second or third attempt are scored by two independent assessors (i.e., they are double scored).
  ▪ In the case of double scoring, if the two scores for a response differ by more than 1.25 points, the trainer or supervisor of the assessors provides the third score, and the third score is the final score. If the two scores do not differ by more than 1.25, the two scores are averaged and the averaged score is the final score.
  ▪ All unweighted and weighted scaled scores for each portfolio component as well as the selected response item part and each constructed response item in Component 1 are rounded to three decimal places.

Situations That May Result in Scores of “0” (Zero)

If the space on your score report for a score assigned to a constructed response item or a portfolio component displays a “0” (zero), then one or more of the following applies:

▪ For a constructed response item, the response you submitted did not meet the requirements to receive the minimum score of 0.75 on a constructed response item.

▪ For the portfolio components,
  ▪ you did not submit a major piece of evidence such as written commentaries, the student work samples, the video recordings, or other critical materials.
  ▪ your video recording(s) were not viewable.
  ▪ your submission contained student work, video-recorded footage, and/or assessment data that was in a language other than English (and/or the target language for World Languages) and did not include an explanation or a translation.
  ▪ your videos included edits beyond those allowed as specified in the video editing rules (see your certificate-specific Portfolio Instructions and Scoring Rubric and General Portfolio Instructions for the rules).
  ▪ your written commentary did not describe the evidence in your video(s) or student work samples.
Situations That May Result in Scores of “NS” (Not Scorable)

If the space on your score report for a score displays the “NS” (not scorable) designation, then one of the following may apply:

- For the assessment center responses,
  - you did not schedule or attend your assessment center testing appointment.
  - you did not open the selected response item part of the exam and did not attempt any of the items.
  - you did not open a constructed response item and did not view any prompts in the item.
  - you were suspected of plagiarism or cheating, and your submission was escalated to the Initial Review Panel (see Guide to National Board Certification) for possible disqualification.

- For the portfolio components,
  - you did not submit a portfolio component.
  - your portfolio component submission revealed that the age range requirement was not met; i.e., the class or groups featured did not include at least 51% of students within the defined age parameters of your selected certificate area.
  - your portfolio component submission featured content that did not fall within the scope of your selected certificate area.
  - your portfolio component submission featured classes and/or students and evidence that did not fall within the allowable time frame specified in the certificate-specific Portfolio Instructions and Scoring Rubric and General Portfolio Instructions.
  - you and your students could not be seen and heard in your video recording. The teacher and the students must be identifiable, seen, and heard interacting with one another.
  - your retake of a portfolio component did not adhere to the retake rules in the General Portfolio Instructions.
  - you were suspected of plagiarism or cheating, and your submission was escalated to the Initial Review Panel (see Guide to National Board Certification) for possible disqualification.
Requirements for Achieving Board Certification

In order to achieve certification, you must meet (1) three score requirements and (2) an employment requirement. If you are seeking certification in World Languages, you must also meet (3) an ACTFL language proficiency requirement. All requirements are described below.

Score Requirements

To achieve National Board Certification you must meet each of the following three score requirements:

1. assessment center section average score of at least 1.75
2. portfolio section average score of at least 1.75
3. total weighted scaled score of at least 110

**IMPORTANT:** You must meet each of the above three score requirements to achieve National Board Certification. Remember, a score of 2.75 is the lowest rubric score in the range of clear evidence of accomplished teaching practice. Meeting the section requirements of 1.75 is necessary but does not ensure you will have the scores required to meet the total weighted scaled score requirement of 110. Section average score requirements of 1.75 do not reflect accomplished teaching; the purpose of the section score requirements is to ensure that candidates demonstrate at least limited evidence of what each section measures in order to be eligible for certification at the overall assessment level. That is, you could earn an unweighted average score of at least 1.75 on both the assessment center section and the portfolio section and not earn a total weighted scaled score of 110, and you would not achieve certification. Additionally, in rare cases, you could earn a total weighted scaled score of at least 110 and not meet one of the section’s unweighted average score requirement, and therefore you would not achieve certification.

What You Need to Know about the Score Requirements

- **You must earn an average score of at least 1.75 on the assessment center section** (i.e., the average of the unweighted scores from the three constructed response items and the selected response item part in *Component 1: Content Knowledge*). The score requirement on this section is based on the average of your highest unweighted, or rubric, scores (HUS). It is not based on weighted scaled scores. All unweighted and weighted scaled scores are rounded to three decimal places.

  **NOTE:** The number of scorable selected response items answered correctly (0–40) will be converted to a 0–4.25 score scale before reporting and averaging.

- **You must earn an average score of at least 1.75 on the portfolio section** (i.e., the average of the unweighted scores from Component 2: Differentiation in Instruction, Component 3: Teaching Practice and Learning Environment, and Component 4: Effective and Reflective Practitioner). The score requirement on this section is based on the average of your highest unweighted, or rubric, scores (HUS). It is not based on weighted scaled scores. All unweighted and weighted scaled scores are rounded to three decimal places.
You must earn a total weighted scaled score of at least 110. The total weighted scaled score is the sum of your weighted scaled scores from the four parts of Component 1 and three weighted scaled scores from Components 2–4. Weighted scaled scores are obtained by multiplying your highest unweighted score (HUS) by its scaling weight (SW) and rounding to 3 decimal places. The total weighted scaled score is rounded to the nearest integer.

How Were the Score Requirements Determined?

All score requirements are rooted in the National Board scoring rubrics that were developed and reviewed by National Board Certified Teachers and other professionals. Section average score requirements indicate to both candidates and policymakers that the National Board values the aspects of teaching that both of these sections assess. The institution of section average score requirements was not designed to be a performance standard indicative of accomplished teaching. Rather, the purpose of the minimum average scores is to ensure that candidates must demonstrate at least limited evidence (scoring rubric Level 2 core definition of which 1.75 is the lower bound) of what each section measures in order to be eligible for certification at the overall assessment level. The National Board’s Certification Council and Board of Directors reviewed and approved all score requirements.

Employment Requirement

In addition to the score requirements, all candidates must meet the education, licensure, and employment requirements described in the Guide to National Board Certification. Candidates must have successfully completed three years of teaching at one or more early childhood, elementary, middle, or secondary schools to achieve Board certification. (Applicants for ECYA/School Counseling must have successfully completed three years serving as a school counselor.) The employment requirement must be met no later than June 30 of a candidate’s third year of candidacy to be eligible to achieve National Board certification.

ACTFL Requirement for World Languages Candidates

World Languages candidates must also meet the National Board World Languages Standards for language proficiency by providing official American Council on the Teaching of Foreign Languages (ACTFL) Speaking and Writing Proficiency Certificates with a rating at or above Advanced Low. For more information about the ACTFL requirement, please consult the Guide to National Board Certification.
Your Score Report

Accessing Your Score Report

Your official score report and transcript, which contains all of your component scores by assessment cycle, will be available to you via your personal National Board account. The National Board will release scores no later than December 31 each year. Monitor the Score Release page for updates and the exact date of score release.

Understanding Your Score Report

Your official National Board score report will include your certification status, whether or not you met each certification requirement, important next steps, and your scores. In addition to reviewing the sample score report on the following pages, you can also view Interpreting Your National Board Score Report to help answer questions you may have.

See the sample score report on the following pages and click the letters and numbers in the gold circles to learn about the information provided in each section. To return to the score report after clicking a letter or number, click “ALT+Left Arrow.”
Name: First Name Last Name
Candidate ID: 09995550
Certification Area: Generalist-Middle Childhood
Assessment Cycle: 2022 - 2023

Your Status: Not Yet Achieved

Employment Requirement

Successful completion of at least three years teaching

What Do These Results Mean?
- You demonstrated your persistence and professional commitment by submitting all four components.

IMPORTANT!
- You must meet all score requirements. You can do this by retaking components.

What Can I Do Next?
- Work on improving your score. Plan your assessment timeline, know the retake rules, and use the score calculator to confirm which improvements will lead to certification. For help, Preparing for the Next Assessment Cycle in the Scoring Guide.
- Learn more about your scored submissions by reading each section of your score report, Understanding Your Score Report in the Scoring Guide, or watch Understand your Score and Feedback Statements.
- Discover more by reflecting on statements you received with any portfolio scores less than 3.75. These statements are aligned with the Five Core Propositions and can support the continuous improvement of your practice. How to Use Feedback Statements in the Scoring Guide.

For more information, visit www.nbpts.org or contact Customer Support.
Your Scores

This section displays your highest score with any associated feedback statements for each component you have taken. Your Score Transcript, which can be accessed from the Scores page of your National Board account, displays all of your component scores by assessment cycle.

Component 2 Feedback Statements:

You may wish to provide clearer evidence that demonstrates your ability to differentiate and apply appropriate pedagogy to develop individual student's understanding of key concepts.

You may wish to provide clearer evidence that you set appropriate goals for student learning and connect those goals to differentiated instruction and individual student needs.

You may wish to provide clearer evidence that you give appropriate individual feedback and next steps to each student.

You may wish to provide clearer evidence of your ability to accurately describe, analyze, and evaluate student work.

You may wish to provide clearer evidence of your ability to engage in reflective thinking about how your instruction is differentiated to meet the needs of individual students.

</table>

Component 4 Feedback Statements:

You may wish to provide clearer evidence of knowledge of your students through analysis and discussion of prior-year student assessment data, collected observational data, and relevant information obtained from families and colleagues.

You may wish to provide clearer evidence that you apply knowledge gathered about the students when establishing learning goals and when planning instruction.

You may wish to provide clearer evidence that the professional learning in which you engage enables you to improve your ability to support student growth.

**Portfolio Section Average Score:** 2.333

**Total Weighted Scaled Score:** 109
A. Your Status

Your Status displays whether you achieved National Board Certification or not, or whether your certification is still in progress. Below is a table with the four possible certification statuses and what each means.

<table>
<thead>
<tr>
<th>Your Status</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Achieved Certification</td>
<td>You attempted all four components and met all certification score requirements. Congratulations!</td>
</tr>
<tr>
<td>Certification In Progress</td>
<td>You have not attempted one or more components and you are within the first three years of your candidacy. Your certification status cannot be determined until you have attempted all four components. <strong>NOTE:</strong> You must attempt each of the four components within the first three years of your candidacy.</td>
</tr>
<tr>
<td>Not Yet Achieved</td>
<td>You have attempted all four components, but have not met all certification requirements, and you have retake attempts available. <strong>NOTE:</strong> You have up to two retake attempts for each component or parts. You can retake at any time during the five-year window, and retake years do not have to be consecutive.</td>
</tr>
<tr>
<td>Did Not Achieve Certification</td>
<td>You have not met each certification requirement within the five-year window. To achieve certification, you need to start the process anew.</td>
</tr>
</tbody>
</table>

B. Certification Requirements

This section shows whether or not you met each requirement for National Board Certification. If there is a “Yes” displayed for all requirements, you achieved National Board Certification! If you have not attempted or did not earn a valid score on one or more components, “N/A” will be displayed.

1. Score and Employment Requirements

These rows display the requirements you must meet to achieve certification. If you are a World Languages candidates, you will also have an ACTFL requirement. See “Requirements for Achieving Board Certification” earlier in this document. If you are seeking certification in World Languages, this section will also have a row for the “ACTFL language proficiency requirement.”

2. Met Requirement?

This column displays if you met the certification requirement.

- If a “Yes” is displayed for a requirement, you met that requirement.
- If a “No” is displayed for a requirement, you did not yet achieve certification. You will need to review the sections “What Do These Results Mean” and “What Can I Do Next?” for your personalized information based on what requirements you may have not yet met.
- If "N/A" is displayed for the assessment center section and/or portfolio section, you have not attempted one or more of the components in that section(s).
If "N/A" is displayed for the total weighted scaled score, you have not attempted all four components.

3. Your Highest Score
This column displays your highest scores for each of the score requirements:

- The assessment center section average score is the average of your highest unweighted scores for Component 1. This score must be at least 1.75 to meet the assessment center section average score requirement. If you have not attempted Component 1 or if your highest score is NS for any of the four parts of Component 1, your average score for that section will display “N/A.”

- The portfolio section average score is the average of your highest unweighted score for Components 2, 3, and 4. This score must be at least 1.75 to meet the portfolio section average score requirement. If you have not attempted one or more portfolio components or if your highest score is NS for any of the three portfolio components, your average score for that section will display “N/A.”

- The total weighted scaled score is the sum of your weighted scaled scores for each of the components. This score must be at least 110 to meet the total weighted scaled score requirement. If you have not attempted one or more components or if you have received an NS for any component, your total weighted scaled score will display “N/A.”

C. What Do These Results Mean and What Can I Do Next?
This section displays personalized information based on your certification status and what certification requirements you may have not yet met.

D. Your Scores
This section displays your highest scores (applicable for retake candidates) on each component you have taken along with any associated feedback statements for portfolio components.

4. Component Name/Component Part Name
This column displays the full name of the component and/or the name of the parts of Component 1: Content Knowledge. The components are split in two sections: the assessment center section and the portfolio section.

5. Assessment Cycle
This column displays the cycle in which you earned your highest score for that part of the assessment (applicable for retakes.)

6. Highest Unweighted Score (HUS)
This column displays your highest unweighted score, or rubric score, on each part of the assessment. The highest and lowest scores are 4.25 (4+) and 0.75 (1–), respectively; however, a score of zero is possible. If you have retaken a part, your highest score carries forward. This score is based on the scoring rubric and is sometimes called a raw score.

- If the space on your score report for a score assigned to a constructed response item or a portfolio component displays an “NS” or a “0” (zero), a reason will be displayed under feedback statements.

7. Scaling Weight (SW)
This is the number used to transform your highest unweighted score to a weighted scaled score.
8. Weighted Scaled Score (HUS x SW)
   This score is your highest unweighted score multiplied by the corresponding scaling weight.

9. Assessment Center Section Average Score
   This score is the average of your highest unweighted scores for Component 1. This score is the total of your highest unweighted scores on the four parts of Component 1 divided by 4, i.e., the number of Component 1 parts. If you have not attempted Component 1 or if your highest score is NS for any of the four parts of Component 1, your average score for that section will display "N/A."

10. Feedback Statements
    Feedback statements will be displayed for a portfolio component if your unweighted score is less than 3.75 on that portfolio component. These statements reflect the Five Core Propositions and can guide you in general areas in which you may want to reflect on your performance. Refer to the “Understanding the Standardized Feedback Statements for Portfolio Components” section in this document for information.

11. Portfolio Section Average Score
    This score is the average of your highest unweighted score for Components 2, 3, and 4. This score is the total of your highest unweighted scores displayed below for Components 2, 3, and 4 divided by 3 (the number of portfolio components). If you have not attempted one or more of the portfolio components or if your highest score is NS for any of the three portfolio components, your average score for that section will display "N/A."

12. Total Weighted Scaled Score
    Your total weighted scaled score is calculated by adding together all seven weighted scaled scores (four scores from the assessment center section and three scores from the portfolio section) and rounding to the nearest integer. Valid scores on this scale range from a minimum of about 30 to a maximum of 178. If you have not attempted one or more of the components or if you have received an NS for any component, your total weighted scaled score will display "N/A."

A Note about Scores and Weights
Your unweighted scores are multiplied by scaling weights and then added together and rounded to the nearest integer to create your total weighted scaled score. The following section describes the process to create the formula that is used to transform your unweighted rubric scores into the total weighted scaled score. This process involves three design elements that were determined by the National Board: the component weights, the performance standard, and a number that represents the performance standard on the weighted score scale.

The component weights are:

- The assessment center section (Component 1: Content Knowledge) makes up 40% of your total weighted scaled score:
  - The three constructed response items weight is 50% of the assessment center section. Each constructed response item is weighted 6.67%\(^1\) of the total weighted scaled score.

---
\(^1\) More precisely, each CRI is weighted one-third of 20%, which rounds to 6.67%. The unrounded weight was used in creating the scaling formula listed in this section.
- The selected response item part is 50% of the assessment center section. The section is weighted 20% of the total weighted scaled score.

- The portfolio section (Components 2, 3, and 4 combined) makes up 60% of your total weighted scaled score:
  - *Component 2: Differentiation in Instruction* weight is 25% of the portfolio section total. The component is weighted 15% of the total weighted scaled score.
  - *Component 3: Teaching Practice and Learning Environment* weight is 50% of the portfolio section total. The component is weighted 30% of the total weighted scaled score.
  - *Component 4: Effective and Reflective Practitioner* weight is 25% of the portfolio section total. The component is weighted 15% of the total weighted scaled score.
The performance standard is the minimum total weighted scaled score requirement. It is one of the requirements that you must meet in order to be certified (see the “Requirements for Achieving Board Certification” section of this document for all three score requirements). The National Board has defined the number that represents the overall performance standard as 110. This is the total weighted scaled score that would be achieved if a hypothetical candidate earned an unweighted score of 2.63 on every part of the assessment.

The total weighted scaled score formula incorporates these design elements into a scaling system that has valid scores that range from a minimum of about 30 to a maximum of 178. This formula was created using the following steps:

1. Calculate the scaling factor by dividing the target total weighted scaled score for the performance standard by the hypothetical unweighted score for the minimally qualified candidate:

   $$Scaling \ Factor = \frac{110}{2.63} = 41.8250951$$

2. Multiply the percentage weight for each part by the scaling factor to obtain the scaling weights for each part. Note that the percentage weight is first converted to a proportion; the product is then rounded to the nearest thousandth.
The table below provides the percentage weights and scaling weights for each component. The column on the far right demonstrates how the scaling weights are applied to obtain the performance standard of 110 for a hypothetical candidate who scores 2.63 on every part of the assessment.

### Accessing Your Score Transcript

You will be able to access your score transcript—which includes all scores, associated feedback statements, and weighted scores from current and previous attempts—by accessing your National Board account.

---

2 Candidates need to demonstrate the same level of accomplished teaching practice to achieve certification that was required to achieve certification on the previous assessment.
Evaluating Your Performance

Use the following information to help you evaluate your results.

Using the Rubric to Evaluate Your Performance

Each rubric level is represented by a range of scores. You may match your score to the appropriate level to identify possible performance characteristics for your portfolio components and constructed response items/exercises.

The graphic below shows the rubric levels, score ranges, and associated qualities of evidence.

<table>
<thead>
<tr>

Scores in Levels 1 and 2 Represent Not-Yet-Accomplished Teaching Practice

Scores in Levels 3 and 4 Represent Accomplished Teaching Practice

To understand how to potentially strengthen your response to a constructed response item or retake a portfolio component, read the Level 4 and Level 3 performance characteristics of the rubrics in your certificate-specific Sample Items and Scoring Rubrics for Component 1 and your certificate-specific Portfolio Instructions and Scoring Rubric for Components 2, 3, and 4, available at the National Board website. These rubric levels state the qualities of evidence needed to meet the performance standard for accomplished teaching. Using the language of these two rubric levels, ask yourself what evidence you must provide to demonstrate that your portfolio component or response to a constructed response item/exercise meets the performance standard.
Evaluating Your Performance on Component 1: Content Knowledge

You may consider evaluating your performance on Component 1 using the following guiding questions:

- Did you study the Standards in your certificate area before attending the assessment center?
- Did you analyze your strengths and weaknesses in relation to the Standards?
- Did you review the information published in Sample Items and Scoring Rubrics for Component 1?
  - How did you prioritize your time while taking the exam?
  - Were you able to make solid connections in your responses to the Standards described in the rubric?
  - If you were asked to review student work samples, how well were you able to comment on the characteristics of those work samples?
  - If you were asked to design instruction, how well were you able to plan and articulate appropriate instruction or intervention for the stated teaching and learning or counseling goal(s)?
  - If you were asked to review a scenario, how well were you able to comment on the issues, challenges, or student needs presented in those scenarios?
  - Did you consult other resources relevant to the content area assessed?
  - Did you use the National Board web tutorial to prepare for the assessment center experience?

After you complete your three constructed response items and leave the assessment center, take a few minutes to write some notes about your responses. Record as much information as you can recall about the content, focus, and organization of your work for your personal records. Remember that you signed an ethics clause not to disclose any information to anyone or share your information electronically. This documentation may help you interpret your scores. You can then evaluate your scores as follows:

- Read the scoring rubrics in your certificate-specific Sample Items and Scoring Rubrics for Component 1, paying close attention to the information corresponding to your scores.
- Read the rubric for each constructed response item’s Level 3 performance, which underscores the characteristics of a response needed to demonstrate clear evidence of meeting the Standards. For each of the descriptive statements, consider what evidence would have demonstrated that you met the Standards for the constructed response item.
- Review the description of each constructed response item in Sample Items and Scoring Rubrics for Component 1.
- Review your notes on the content of the constructed response item.
Evaluating Your Performance for Portfolio Components 2–4

To understand the strengths and weaknesses of your performance on any of the portfolio components, refer to the tables on the following pages, which illustrate the connection between your assigned scores and the quality of evidence at each performance level.

Portfolio Component Score Range: 3.75–4.25

If your score on a portfolio component is between 3.75 and 4.25 inclusive, your performance has characteristics of the Level 4 performance. You have engaged in teaching and learning activities that exceeded the Standards for the component, and you submitted clear, consistent, and convincing evidence overall of having done so.

Component 2: Differentiation in Instruction

You provided clear, consistent, and convincing evidence to demonstrate that you:

▪ have a thorough knowledge of students as individual learners and set high, worthwhile, and attainable goals for student growth;
▪ use varied, rich, and appropriate assignments and instructional resources;
▪ are able to accurately and thoughtfully describe and analyze student work in ways that recognize students’ progress and offer means for students to build on their accomplishment;
▪ engage in detailed and effective communication with students that directs their attention to the salient features of their work and encourages them to reflect upon how their work can be improved;
▪ are able to describe your practice fully and accurately and reflect insightfully on its effectiveness in meeting the challenges of teaching.

Component 3: Teaching Practice and Learning Environment

You provided clear, consistent, and convincing evidence to demonstrate that you:

▪ established a safe, fair, equitable, and challenging environment that promotes self-directed learning and active student engagement with the teacher, other students, and the content (as demonstrated through the video recordings, provided with your Written Commentary);
▪ created a student-centered learning environment that is based on trust and mutual respect, facilitates the inquiry process, and equips students with skills that support collaboration;
▪ effectively monitored student learning during the lessons, made instructional adjustments, and provided regular constructive feedback to students;
▪ effectively supported students in developing the dispositions and proficiencies necessary to explore significant content topics and skills;
▪ were able to communicate persuasively about your pedagogical decisions and reflect insightfully on your practice and implications for future teaching.
## Component 4: Effective and Reflective Practitioner

You provided clear, consistent, and convincing evidence to demonstrate that you:

- apply in-depth knowledge gathered about your students in planning effective and fair instruction and assessment;
- understand that assessment is a recursive process that involves setting initial learning goals, administering assessments that are appropriate to measure students’ progress toward those goals, evaluating student progress, and setting new learning goals to improve student learning;
- select or create assessments that measure what you intend to measure and understand how to use assessments for formative and summative purposes to gain information about student progress and to inform and modify instruction;
- help students effectively apply feedback from assessments in ways that positively impact the students’ learning, skillfully enabling students to use assessment as a tool to take responsibility for their own learning;
- methodically expand your own professional knowledge by participating in professional development and engaging in advocacy to contribute measurably to student learning and growth.
Portfolio Component Score Range: 2.75–3.25

If your score on a portfolio component is greater than 3.25 and less than 3.75, your performance has characteristics of the Level 4 and Level 3 performances. While you may have engaged in teaching and learning activities that exceeded the Standards for the component, and submitted some clear, consistent, and convincing evidence, the preponderance of the evidence is that of a Level 3 performance; that is, the component contains clear evidence of having met the Standards.

If your score on a portfolio component is between 2.75 and 3.25 inclusive, your performance has characteristics of the Level 3 performance. You have engaged in teaching and learning activities that met the Standards for the component, and you submitted clear evidence overall of having done so.

Evaluate the evidence from your portfolio component to identify which of the component areas you can strengthen. Use the table below in conjunction with the standardized feedback statements specified on your score report, the component instructions, the Five Core Propositions, your Standards, and the scoring rubric to help you focus on improving your performance.

### Component 2: Differentiation in Instruction

You provided clear evidence to demonstrate that you:
- have a knowledge of students as individual learners and set appropriate goals for student growth;
- use varied and appropriate assignments and instructional resources;
- are able to accurately describe and analyze student work in ways that recognize students’ progress and offer means for students to build on their accomplishments;
- engage in effective communication with students that directs their attention to the salient features of their work and encourages them to reflect upon how their work can be improved;
- are able to describe your practice and reflect on its effectiveness in meeting the challenges of teaching.

### Component 3: Teaching Practice and Learning Environment

You provided clear evidence to demonstrate that you:
- established a safe, fair, equitable, and challenging environment that promotes self-directed learning and active student engagement with the teacher, other students, and the content (as demonstrated through the video recordings, provided with your Written Commentary);
- created a student-centered learning environment that is based on trust and mutual respect, facilitates the inquiry process, and equips students with skills that support collaboration;
- monitored student learning during the lessons, made instructional adjustments, and provided regular constructive feedback to students;
- supported students in developing the dispositions and proficiencies necessary to explore significant content topics and skills;
- were able to communicate effectively about your pedagogical decisions and reflect on your practice and implications for future teaching.
Component 4: Effective and Reflective Practitioner

You provided clear evidence to demonstrate that you:

- adequately apply knowledge gathered about your students in planning instruction and assessment;
- understand that assessment is a recursive process that involves setting initial learning goals, administering assessments that are appropriate to measure students’ progress toward those goals, evaluating student progress, and setting new learning goals to improve student learning;
- select or create assessments that measure what you intend to measure and understand how to use assessments for formative and summative purposes to gain information about student progress and to inform and modify instruction;
- help students adequately apply feedback from assessments in ways that positively impact the students’ learning, routinely enabling students to use assessment as a tool to take responsibility for their own learning;
- expand your own professional knowledge by participating in professional development and engaging in advocacy to contribute to student learning and growth.
Portfolio Component Score Range: 1.75–2.25

If your score on a portfolio component is greater than 2.25 and less than 2.75, your performance has characteristics of the Level 3 and Level 2 performances. While you may have engaged in teaching and learning activities that met the Standards for the component and submitted some clear evidence, the preponderance of the evidence is that of a Level 2 performance; that is, the component contains limited evidence of having met the Standards.

If your score on a portfolio component is between 1.75 and 2.25 inclusive, your performance has characteristics of the Level 2 performance. While you may have engaged in teaching and learning activities that would have met the Standards for the component, you submitted limited evidence overall of having done so.

Evaluate the evidence from your portfolio component to identify which of the component areas you can strengthen. Use the table below in conjunction with the standardized feedback statements specified on your score report, the component instructions, the Five Core Propositions, your Standards, and the scoring rubric to help you focus on improving your performance.

### Component 2: Differentiation in Instruction

You may need to provide clear evidence to demonstrate that you:

- have a knowledge of students as individual learners and set appropriate goals for student growth;
- use varied and appropriate assignments and instructional resources;
- are able to accurately describe and analyze student work in ways that recognize students’ progress and offer means for students to build on their accomplishments;
- engage in effective communication with students that directs their attention to the salient features of their work and encourages them to reflect upon how their work can be improved;
- are able to describe your practice and reflect on its effectiveness in meeting the challenges of teaching.

### Component 3: Teaching Practice and Learning Environment

You may need to provide clear evidence to demonstrate that you:

- established a safe, fair, equitable, and challenging environment that promotes self-directed learning and student engagement with the teacher, other students, and the content (as demonstrated through the video recordings, provided with your Written Commentary);
- created a student-centered learning environment that facilitates the inquiry process and equips students with skills that support collaboration;
- monitored student learning during the lessons, made instructional adjustments, and provided feedback to students;
- supported students in developing the dispositions and proficiencies necessary to explore content topics and skills;
- were able to communicate effectively about your pedagogical decisions and reflect on your practice and implications for future teaching.

</tbody>
</table>
Portfolio Component Score Range: 0.75–1.25

If your score on the portfolio component is greater than 1.25 and less than 1.75, your performance has characteristics of the Level 2 and Level 1 performances. While you may have engaged in teaching and learning activities that would have met the Standards for the component, the preponderance of the evidence is that of a Level 1 performance; that is, the component contains little or no evidence of having met the Standards.

If your score on a portfolio component is between 0.75 and 1.25 inclusive, your performance has characteristics of the Level 1 performance. While you may have engaged in teaching and learning activities that would have met the Standards for the component, you submitted little or no evidence overall of having done so.

Evaluate the evidence from your portfolio component to identify which of the component areas you can strengthen. Use the table below in conjunction with the standardized feedback statements specified on your score report, the component instructions, the Five Core Propositions, your Standards, and the scoring rubric to help you focus on improving your performance.

### Component 2: Differentiation in Instruction

You will need to provide clear evidence to demonstrate that you:
- have a knowledge of students as individual learners and set appropriate goals for student growth;
- use varied and appropriate assignments and instructional resources;
- are able, through ongoing monitoring, to accurately describe and analyze student work in ways that recognize students’ progress and offer means for students to build on their accomplishments;
- engage in effective communication with students that directs their attention to the salient features of their work and encourages them to reflect upon how their work can be improved;
- are able to describe your practice and reflect on its effectiveness in meeting the challenges of teaching.

### Component 3: Teaching Practice and Learning Environment

You will need to provide clear evidence to demonstrate that you:
- established a safe, fair, equitable, and challenging environment that promotes self-directed learning and student engagement with the teacher, other students, and the content (as demonstrated through the video recordings, provided with your Written Commentary);
- created a student-centered learning environment that facilitates the inquiry process and equips students with skills that support collaboration;
- monitored student learning during the lessons, made instructional adjustments, and provided feedback to students;
- supported students in developing the dispositions and proficiencies necessary to explore content topics and skills;
- were able to communicate effectively about your pedagogical decisions and reflect on your practice and implications for future teaching.
Component 4: Effective and Reflective Practitioner

You will need to provide clear evidence to demonstrate that you:

▪ adequately apply knowledge gathered about your students in planning instruction and assessment;

▪ understand that assessment is a recursive process that involves setting initial learning goals, administering assessments that are appropriate to measure students’ progress toward those goals, evaluating student progress, and setting new learning goals to improve student learning;

▪ select or create assessments that measure what you intend to measure and understand how to use assessments for formative and summative purposes to gain information about student progress and to inform and modify instruction;

▪ help students adequately apply feedback from assessments in ways that positively impact the students’ learning, routinely enabling students to use assessment as a tool to take responsibility for their own learning;

▪ expand your own professional knowledge by participating in professional development and engaging in advocacy to contribute to student learning and growth.
Understanding the Standardized Feedback Statements for Portfolio Components

If you achieve a score less than 3.75 on a portfolio component, feedback statements appear on your score report. These statements

▪ reflect the Five Core Propositions and guide you in the general areas in which you might want to reevaluate your performance(s).
▪ are component specific. A separate set of feedback statements has been developed for each portfolio component.
▪ are score-point specific. You may receive multiple statements for a portfolio component; assessors assign all statements specific to a performance to provide the most helpful feedback.

Refer to “Standardized Feedback Statements for Your Portfolio Component” in this document for a list of feedback statements.

How Feedback Statements Are Assigned

Assessors are given intensive training on the purpose of standardized feedback and how to assign feedback statements. They are trained to score supportively, looking for and rewarding instances when sufficient evidence is provided. When evaluating portfolio components, assessors first use the rubric and the Standards to assign a holistic score to a component. Then, if it is necessary, they assign the most appropriate and helpful feedback statements associated with a performance. You could receive from one to all feedback statements for the score level based on the assessor's evaluation of your component.

How to Use Feedback Statements

Feedback statements provide insight about the quality of your portfolio components. Assessors assign feedback statements to highlight points of weakness in a portfolio component to enable you to target areas for improvement.

Read the standardized feedback statements on your score report; then examine your copy of your portfolio component. Reread the Five Core Propositions, your Standards, and the scoring rubric to identify where your original portfolio component could have been strengthened. Based on each feedback statement, reflect on how you can provide clear, consistent, and convincing evidence as you prepare your retake component. Watch Understanding Scores and Feedback Statements to help you understand how to use the rubric to evaluate your performance and strengthen your retake portfolio component or response to a constructed response item.

You may also wish to solicit feedback from colleagues on your portfolio component. Ask a mentor, fellow candidate, or a National Board Certified Teacher to provide constructive criticism on your portfolio component and assist you in determining how identified areas can be strengthened. Ask this person to review the Standards, the scoring rubric provided in the instructions, and your response. To learn more about supports available in your state, visit the In Your State page on the NBPTS website. Here you will find information about funding, incentives, and state/district contacts who can provide assistance.

Standardized feedback statements are one of several tools you can use to determine whether to retake a portfolio component in support of continuing your path to National Board Certification. Refer to "Preparing for the Next Assessment Cycle" in this document for information to assist with your retake decision.
Feedback Statements Not Related to the 5 Core Propositions (“Other”)

For the portfolio components, you must follow the directions in the General Portfolio Instructions as well as the component-specific portfolio instructions and scoring rubric. Failure to do so could result in your submission being scored as zero or not scorable (NS), or you may receive a Score Level 1 or 2. For Score Levels 1 and 2, you may receive feedback suggesting you review the instructions for the portfolio component. This feedback may refer to one or more of the following deficiencies in your portfolio submission (this list does not include every possible irregularity):

- fewer students or instructional activities than required
- irregularities (too many pages due to reduced size of scanned pages, reduced font size, decreased margins, reduced spacing, or simply exceeding the specified page limit; non-allowed edit in video)
- missing evidence (missing instructional context; missing forms; missing assignments/prompts; minimal commentary; missing key part of commentary; missing assessment, professional learning need, or student need)
- wrong student work samples or lesson types
- use of two formative assessments or two summative assessments instead of one of each
- videos from the same lesson or instructional unit
- videos feature mirrored approaches or content, as opposed to showing breadth of content and different instructional formats and teaching strategies
Standardized Feedback Statements for Your Portfolio Components

If your score was less than 3.75 on a portfolio component, you will receive standardized feedback on your score report. Feedback statements were developed to reflect the Five Core Propositions and to guide you in the general area in which you might want to re-evaluate your performance. Separate sets of feedback statements for Levels 1, 2, and 3 have been developed for each portfolio component and are listed in this section.

**Component 2: Differentiation in Instruction—Score Level 1**

1. Teachers are committed to students and their learning
   - A You may wish to focus on providing evidence of your insight into student learning through your recognition of students’ individual learning differences.
   - B You may wish to focus on showing greater knowledge of individual students.

2. Teachers know the subjects they teach and how to teach those subjects to students
   - C You may wish to provide evidence of your own knowledge of the subject through instruction and assignments that develop individual student’s abilities.
   - D You may wish to provide evidence that demonstrates your ability to differentiate and apply appropriate pedagogy to develop individual student’s understanding of key concepts.

3. Teachers are responsible for managing and monitoring student learning
   - E You may wish to provide evidence that you set appropriate goals for student learning and connect those goals to differentiated instruction and individual student needs.
   - F You may wish to provide evidence that you give appropriate individual feedback and next steps to each student.
   - G You may wish to provide evidence of your ability to accurately describe, analyze, and evaluate student work.

4. Teachers think systematically about their practice and learn from experience
   - H You may wish to provide evidence of your ability to engage in reflective thinking about how your instruction is differentiated to meet the needs of individual students.
   - I You may wish to provide evidence of insight on your future instructional practices.

5. Other
   - J You may wish to review the instructions to ensure you followed the directions for developing and submitting the entry.
Component 2: Differentiation in Instruction—Score Level 2

1. **Teachers are committed to students and their learning**
   - A You may wish to provide clearer evidence of your insight into student learning through your recognition of students’ individual learning differences.
   - B You may wish to provide clearer evidence of your knowledge of individual students.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   - C You may wish to provide clearer evidence of your own knowledge of the subject through instruction and assignments that develop individual student’s abilities.
   - D You may wish to provide clearer evidence that demonstrates your ability to differentiate and apply appropriate pedagogy to develop individual student’s understanding of key concepts.

3. **Teachers are responsible for managing and monitoring student learning**
   - E You may wish to provide clearer evidence that you set appropriate goals for student learning and connect those goals to differentiated instruction and individual student needs.
   - F You may wish to provide clearer evidence that you give appropriate individual feedback and next steps to each student.
   - G You may wish to provide clearer evidence of your ability to accurately describe, analyze, and evaluate student work.

4. **Teachers think systematically about their practice and learn from experience**
   - H You may wish to provide clearer evidence of your ability to engage in reflective thinking about how your instruction is differentiated to meet the needs of individual students.
   - I You may wish to provide clearer evidence of insight on your future instructional practices.

5. **Other**
   - J You may wish to review the instructions to ensure you followed the directions for developing and submitting the entry.
Component 2: Differentiation in Instruction—Score Level 3

1. **Teachers are committed to students and their learning**
   - **A** You may wish to provide more consistent and convincing evidence of your insight into student learning through your recognition of students’ individual learning differences.
   - **B** You may wish to provide more consistent and convincing evidence of your knowledge of individual students.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   - **C** You may wish to provide more consistent and convincing evidence of your own knowledge of the subject through instruction and assignments that develop individual student’s abilities.
   - **D** You may wish to provide more consistent and convincing evidence that demonstrates your ability to differentiate and apply the appropriate pedagogy to develop individual student’s understanding of key concepts.

3. **Teachers are responsible for managing and monitoring student learning**
   - **E** You may wish to provide more consistent and convincing evidence that you set appropriate goals for student learning and connect those goals to differentiated instruction and individual student needs.
   - **F** You may wish to provide more consistent and convincing evidence that you give appropriate individual feedback and next steps to each student.
   - **G** You may wish to provide more consistent and convincing evidence of your ability to accurately describe, analyze, and evaluate student work.

4. **Teachers think systematically about their practice and learn from experience**
   - **H** You may wish to provide more consistent and convincing evidence of your ability to engage in reflective thinking about how your instruction is differentiated to meet the needs of individual students.
   - **I** You may wish to provide more consistent and convincing evidence of insight on your future instructional practices.
Component 3: Teaching Practice and Learning Environment—Score Level 1

1. **Teachers are committed to students and their learning**
   - A You may wish to provide evidence that you understand child development and have insight into student differences and learning motivations.
   - B You may wish to provide evidence that you foster an equitable setting that provides a safe, intellectually challenging environment for the students.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   - C You may wish to provide evidence of your knowledge of the subject as you appropriately design and deliver your classroom lessons.
   - D You may wish to provide evidence that demonstrates your ability to apply the appropriate pedagogy to facilitate classroom and/or small-group engagement between students and with you.
   - E You may wish to provide evidence that you develop and deliver relevant learning sequences and use diverse instructional strategies to engage all students.

3. **Teachers are responsible for managing and monitoring student learning**
   - F You may wish to provide evidence of your ability to foster a supportive, stimulating, and productive learning environment in which all students are encouraged to participate.
   - G You may wish to provide evidence of your ability to set worthwhile goals for student learning and connect instruction to those goals.
   - H You may wish to provide evidence that you are able to assess student progress, explain student performance, and make adjustments to instruction where needed.

4. **Teachers think systematically about their practice and learn from experience**
   - I You may wish to provide evidence that you are able to describe your own teaching practice and reflect on instructional decisions.
   - J You may wish to provide evidence of insight on your future instructional practices.

5. **Other**
   - K You may wish to review the instructions to ensure you followed the directions for developing and submitting the entry.
Component 3: Teaching Practice and Learning Environment—Score Level 2

1. Teachers are committed to students and their learning
   - [A] You may wish to provide clearer evidence that you understand child development and have insight into student differences and learning motivations.
   - [B] You may wish to provide clearer evidence that you foster an equitable setting that provides a safe, intellectually challenging environment for the students.

2. Teachers know the subjects they teach and how to teach those subjects to students
   - [C] You may wish to provide clearer evidence of your knowledge of the subject as you appropriately design and deliver your classroom lessons.
   - [D] You may wish to provide clearer evidence that demonstrates your ability to apply the appropriate pedagogy to facilitate classroom and/or small-group engagement between students and with you.
   - [E] You may wish to provide clearer evidence that you develop and deliver relevant learning sequences and use diverse instructional strategies to engage all students.

3. Teachers are responsible for managing and monitoring student learning
   - [F] You may wish to provide clearer evidence of your ability to foster a supportive, stimulating, and productive learning environment in which all students are encouraged to participate.
   - [G] You may wish to provide clearer evidence of your ability to set worthwhile goals for student learning and connect instruction to those goals.
   - [H] You may wish to provide clearer evidence that you are able to assess student progress, explain student performance, and make adjustments to instruction where needed.

4. Teachers think systematically about their practice and learn from experience
   - [I] You may wish to provide clearer evidence that you are able to describe your own teaching practice and reflect on instructional decisions.
   - [J] You may wish to provide clearer evidence of insight on your future instructional practices.

5. Other
   - [K] You may wish to review the instructions to ensure you followed the directions for developing and submitting the entry.
Component 3: Teaching Practice and Learning Environment—Score Level 3

1. **Teachers are committed to students and their learning**
   - **A** You may wish to provide more consistent and convincing evidence that you understand child development and have insight into student differences and learning motivations.
   - **B** You may wish to provide more consistent and convincing evidence that you foster an equitable setting that provides a safe, intellectually challenging environment for the students.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   - **C** You may wish to provide more consistent and convincing evidence of your knowledge of the subject as you appropriately design and deliver your classroom lessons.
   - **D** You may wish to provide more consistent and convincing evidence that demonstrates your ability to apply the appropriate pedagogy to facilitate classroom and/or small-group engagement between students and with you.
   - **E** You may wish to provide more consistent and convincing evidence that you develop and deliver relevant learning sequences and use diverse instructional strategies to engage all students.

3. **Teachers are responsible for managing and monitoring student learning**
   - **F** You may wish to provide more consistent and convincing evidence of your ability to foster a supportive, stimulating, and productive learning environment in which all students are encouraged to participate.
   - **G** You may wish to provide more consistent and convincing evidence of your ability to set worthwhile goals for student learning and connect instruction to those goals.
   - **H** You may wish to provide more consistent and convincing evidence that you are able to assess student progress, explain student performance, and make adjustments to instruction where needed.

4. **Teachers think systematically about their practice and learn from experience**
   - **I** You may wish to provide more consistent and convincing evidence that you are able to describe your own teaching practice and reflect on instructional decisions.
   - **J** You may wish to provide more consistent and convincing evidence of insight on your future instructional practices.
Component 4: Effective and Reflective Practitioner—Score Level 1

1. **Teachers are committed to students and their learning**
   - **A** You may wish to provide evidence of knowledge of your students through analysis and discussion of prior-year student assessment data, collected observational data, and relevant information obtained from families and colleagues.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   - **B** You may wish to provide evidence that you apply knowledge gathered about the students when establishing learning goals and when planning instruction.
   - **C** You may wish to provide evidence that you select or create assessments for formative and summative purposes that are appropriate to your subject, your students, and the defined instructional goals.

3. **Teachers are responsible for managing and monitoring student learning**
   - **D** You may wish to provide evidence that student use of feedback and class assessment data impact your instructional approach as students work toward defined instructional goals.
   - **E** You may wish to provide evidence of your ability to assess the progress of a class as a whole, as well as individual students, and to adjust instruction as needed to improve student learning.
   - **F** You may wish to provide evidence that you use multiple methods for measuring student growth and understanding and that you can explain student performance to others.

4. **Teachers think systematically about their practice and learn from experience**
   - **G** You may wish to provide evidence of your ability to engage in reflective thinking about your assessment practices and how they are informed by student learning.
   - **H** You may wish to provide evidence that you critically examine your practice to deepen your knowledge, expand your repertoire, and incorporate new findings.
   - **I** You may wish to provide evidence that the professional learning in which you engage enables you to improve your ability to support student growth.

5. **Teachers are members of learning communities**
   - **J** You may wish to provide evidence that you collaborate in learning communities to build upon your teaching practice and improve student learning.

6. **Other**
   - **K** You may wish to review the instructions to ensure you followed the directions for developing and submitting the entry.
Component 4: Effective and Reflective Practitioner—Score Level 2

1. **Teachers are committed to students and their learning**
   - **A** You may wish to provide clearer evidence of knowledge of your students through analysis and discussion of prior-year student assessment data, collected observational data, and relevant information obtained from families and colleagues.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   - **B** You may wish to provide clearer evidence that you apply knowledge gathered about the students when establishing learning goals and when planning instruction.
   - **C** You may wish to provide clearer evidence that you select or create assessments for formative and summative purposes that are appropriate to your subject, your students, and the defined instructional goals.

3. **Teachers are responsible for managing and monitoring student learning**
   - **D** You may wish to provide clearer evidence that student use of feedback and class assessment data impact your instructional approach as students work toward defined instructional goals.
   - **E** You may wish to provide clearer evidence of your ability to assess the progress of a class as a whole, as well as individual students, and to adjust instruction as needed to improve student learning.
   - **F** You may wish to provide clearer evidence that you use multiple methods for measuring student growth and understanding and that you can explain student performance to others.

4. **Teachers think systematically about their practice and learn from experience**
   - **G** You may wish to provide clearer evidence of your ability to engage in reflective thinking about your assessment practices and how they are informed by student learning.
   - **H** You may wish to provide clearer evidence that you critically examine your practice to deepen your knowledge, expand your repertoire, and incorporate new findings.
   - **I** You may wish to provide clearer evidence that the professional learning in which you engage enables you to improve your ability to support student growth.

5. **Teachers are members of learning communities**
   - **J** You may wish to provide clearer evidence that you collaborate in learning communities to build upon your teaching practice and improve student learning.

6. **Other**
   - **K** You may wish to review the instructions to ensure you followed the directions for developing and submitting the entry.
Component 4: Effective and Reflective Practitioner—Score Level 3

1. **Teachers are committed to students and their learning**
   
   A You may wish to provide more consistent and convincing evidence of knowledge of your students through analysis and discussion of prior-year student assessment data, collected observational data, and relevant information obtained from families and colleagues.

2. **Teachers know the subjects they teach and how to teach those subjects to students**
   
   B You may wish to provide more consistent and convincing evidence that you apply knowledge gathered about the students when establishing learning goals and when planning instruction.
   
   C You may wish to provide more consistent and convincing evidence that you select or create assessments for formative and summative purposes that are appropriate to your subject, your students, and the defined instructional goals.

3. **Teachers are responsible for managing and monitoring student learning**
   
   D You may wish to provide more consistent and convincing evidence that student use of feedback and class assessment data impact your instructional approach as students work toward defined instructional goals.
   
   E You may wish to provide more consistent and convincing evidence of your ability to assess the progress of a class as a whole, as well as individual students, and to adjust instruction as needed to improve student learning.
   
   F You may wish to provide more consistent and convincing evidence that you use multiple methods for measuring student growth and understanding and that you can explain student performance to others.

4. **Teachers think systematically about their practice and learn from experience**
   
   G You may wish to provide more consistent and convincing evidence of your ability to engage in reflective thinking about your assessment practices and how they are informed by student learning.
   
   H You may wish to provide more consistent and convincing evidence that you critically examine your practice to deepen your knowledge, expand your repertoire, and incorporate new findings.
   
   I You may wish to provide more consistent and convincing evidence that the professional learning in which you engage enables you to improve your ability to support student growth.

5. **Teachers are members of learning communities**
   
   J You may wish to provide more consistent and convincing evidence that you collaborate in learning communities to build upon your teaching practice and improve student learning.
Identifying Your Strengths and Weaknesses

After reviewing your scores, identify the portfolio components and parts of Component 1 on which you performed the strongest. Do these scores reflect a level of performance with which you are comfortable, or would you like to strengthen your performance? If you are satisfied, identify the strongest elements of your work. Consider how you can facilitate the continued evolution of your teaching.

▪ What can you do to ensure that your teaching and learning activities positively affect student learning?
▪ How can you further engage students’ families and the community in these teaching and learning activities?
▪ How can you make effective use of information from a variety of assessments to inform and modify instruction to meet students’ needs?
▪ How can you expand and share your professional expertise to improve your impact on student learning and growth?

You should also identify those portfolio components and parts of Component 1 on which you attained your lowest scores. If you would like to improve your work, consider taking the following steps:

▪ Consult other teachers and solicit feedback about your performance.
▪ Take additional coursework or workshops if you had problems with particular content areas.
▪ Prepare to retake portfolio components or parts of Component 1. Refer to “Preparing for the Next Assessment Cycle” in this document.

It is important to reflect on your experience with the National Board Certification process. Consider all you have learned and the ways in which you have advanced your teaching and your students’ learning.
Preparing for the Next Assessment Cycle

This section includes information about retake rules; selecting the components you wish to retake; retaking the parts of Component 1 and Components 2, 3, and 4; and retake fees and deadlines.

What Happens to Your Scores?

National Board will automatically bank your component scores as you work toward completing all components for certification. Note that your highest numeric score—whether it is the initial attempt score or a retake score—is used to compute your total weighted scaled score.

Important Completion and Retake Rules

Please be aware of the following rules and information:

▪ You must meet the employment requirement described in “Employment Requirement” section of this document.

▪ If you are a World Languages candidate, you must also meet the ACTFL language proficiency requirement described in the “ACTFL Requirement for World Languages Candidates” section of this document.

▪ You must attempt each of the four components within the first three years of your candidacy.

▪ You have a five-year window to achieve certification. If you do not achieve certification within the five-year window, you may start the entire certification process again as a first-time candidate.

▪ There is no minimum or maximum score requirement to retake a component; you may need to retake even if you have met both unweighted average score requirements on the assessment center and portfolio sections.

▪ You have up to two retake attempts for each component. You can retake at any time during the five-year window. You can have a year when you take or retake no components; however, keep in mind you only have a three-year window to initially attempt each of the four components and a five-year window within which certification can be achieved.

▪ For Component 1, you can elect to retake one or more of the three constructed response items/exercises and/or the selected response item part. Candidates have up to two retakes for each part of Component 1 at any time during the five-year window. (see “Maximum Number of Allowed Retake Attempts” in this document).

**NOTE:** Although the topic of the constructed response items and/or selected response item part you retake will be the same, you are likely to receive a different version of the item and/or a different selected response item part than the one you took during your initial attempt.

▪ The highest unweighted numeric score received from all attempts of an individual component will be used for total weighted scaled score calculation. A score designation of NS (not scorable) counts as an attempt.
Retake Considerations

Until you have completed all four of the components and received scores, you will not have all the information you need to definitively know if you should retake any component or component part in order to meet all of the score requirements. Having scores for all of the components will help you determine what to retake and how scores increases will affect the assessment center section and portfolio section unweighted average score requirement and the total weighted scaled score requirement.

- A score of 2.75 is the lowest rubric score in the range of clear evidence of accomplished teaching practice.
- If you have not met the assessment center section unweighted average score requirement of at least 1.75, you will need to retake one or more parts of Component 1 in an attempt to earn a higher score.
- If you have not met the portfolio section unweighted average score requirement of at least 1.75, you will need to retake one or more of the portfolio components. You will not know if you met the portfolio section until you have attempted Components 2, 3, and 4.
- Meeting the unweighted average score requirement of 1.75 on the assessment center and portfolio sections is necessary but does not ensure you will meet the total weighted scaled score requirement of 110. You could earn an unweighted average score of at least 1.75 on both the assessment center section and the portfolio section and not meet the total weighted scaled score requirement, and you would not achieve certification. Additionally, in rare cases, you could earn a total weighted scaled score of at least 110 and not meet one of the section’s average score requirement, and therefore you would not achieve certification.
- You will not know whether you met the total weighted scaled score of 110 until you have attempted and received numeric scores for all four of the components (i.e., Components 1–4).
- Consider how to maximize your retake opportunities for meeting or surpassing section average requirements and the performance standard of 110. Even if you have met the section average score requirements, if you do not meet the total weighted scaled score requirement of at least 110, you will need to retake one or more component.

Maximum Number of Allowed Retake Attempts

You have up to two retake attempts for each component. A score of NS (not scorable) counts as an attempt. If you have not met a section score requirement and have attempted all available retakes related to that score requirement, you will not be allowed to continue the certification process. For example, consider a candidate who has retaken Component 1 in its entirety twice in the first three years of their candidacy, and on none of the three attempts (including the initial) have they met the average section score of at least 1.75. There is no probability of achieving certification, and the candidate may not continue. Candidates in this situation can start the entire certification process again as a first-time candidate.
Score Calculator

You are encouraged to use the National Board’s online score calculator to measure the impact of possible new scores. This hands-on tool can help you develop your strategy for retaking portfolio components and parts of Component 1.

Test out various scenarios. You will be able to insert new scores in the highest unweighted score column to see the effect of scores on the following:

- assessment center section average score
- portfolio section average score
- total weighted scaled score
- whether you met each of the score requirements. If you met the requirement, you will see “Yes” in the “Met Requirement?” column. You will see “No” if the scores do not meet the requirement.

Make your calculations using only estimates of reasonable score increases on the scoring rubric, or unweighted, scale.

A screenshot of the online score calculator is presented below:
Selecting Your Retake Components

There are two major questions to consider when selecting the appropriate portfolio components and/or parts of Component 1 to retake:

1. How likely is it that your score on a given component/part will improve?
2. How much will any individual improved score(s) affect your total weighted scaled score?

National Board resources are available to assist you as you evaluate your score report and choose which portfolio components and/or parts of Component 1 to retake. To determine which portfolio components and/or parts of Component 1 to retake, consider the steps described on the following pages:

- Determine how many points you need to increase your score to meet each of the three score requirements, keeping in mind that a score of 2.75 is the lowest rubric score in the range of clear evidence of accomplished teaching practice. The three score requirements you must meet in order to achieve National Board Certification are:
  - assessment center section average score of at least 1.75,
  - portfolio section average score of at least 1.75, and
  - total weighted scaled score of at least 110.
- Estimate your possible unweighted rubric score increase for each portfolio component and/or parts of Component 1.
- Use the score calculator to measure the impact of possible new unweighted rubric scores and compute the scores needed to achieve National Board Certification. The link to the calculator is located in your score report. Remember to make your calculations using only estimates of reasonable score increases.
- Insert new numbers in the highest unweighted score column to see the effect on the assessment center section unweighted average, the portfolio section unweighted average, and the total weighted scaled score of 110.
- Assess your personal strengths and weaknesses relative to each eligible component/part.
- For portfolio components, read any standardized feedback statements on your score report to gain insight about how to improve your performance (see “Understanding the Standardized Feedback Statements for Portfolio Components” in this document for more information).
- Solicit feedback on your portfolio components.
- Consider other personal factors that may affect your choice about which components and/or parts of Component 1 to retake.
Example Retake Scenarios

The following section outlines possible retake scenarios. As you review these scenarios, you should also refer to your own score report, which lists your scores. For information on how to review your score report, see “Understanding Your Score Report” in this document.

Scenario 1

The example presented below represents a scenario where the assessment center section average score of at least 1.75 is not met.

The candidate earned an assessment center section average score of 1.722, so did not meet the minimum unweighted average score of 1.75 required on the assessment center section. The candidate must retake one or more parts of Component 1.

NOTE: Candidates have up to two retakes for each part of Component 1 during the five-year window.

To determine which parts of Component 1 to retake, the candidate would consider the steps described below:

Step 1: Determine how many points you need to increase your assessment center section average score to meet the requirement of at least 1.75, keeping in mind that a score of 2.75 is the lowest rubric score in the range of clear evidence of accomplished teaching practice.

In order to achieve a 1.75 average score, you need to earn a total of 7.000 points on the four parts of the assessment center section (7.000/4 = 1.75).

**Example:** This candidate earned a total assessment center section score of 6.888 (1.125 + 1.000 + 2.000 + 2.763). This candidate would need to earn at least 0.112 points (7.000 – 6.888 = 0.112) to achieve the score requirement of at least 1.75 on the assessment center section. Keep in mind that 1.75 represents only *limited* evidence of accomplished teaching and is not necessarily sufficient to achieve certification. This candidate would likely benefit from banking the higher score received on the selected response items and retaking two or three exercises.

Step 2: Estimate your possible unweighted rubric score increase for each part of Component 1.

You can determine a *reasonable* score increase only after careful consideration of your original performance and a realistic assessment of how much you can improve the qualities of evidence to meet the Standards measured by the constructed response items and selected response items.
- Exercise 1 had a rubric score of 1.125. The candidate estimates a reasonable score increase of 1.000 for Exercise 1, which will raise the rubric score to 2.125.
- Exercise 2 had a rubric score of 1.000. The candidate estimates a reasonable score increase of 2.000 for Exercise 2, which will raise the rubric score to 3.000.
- If the candidate achieves this increase, the assessment center section average score will increase to 2.472, which exceeds the minimum score requirement of 1.75 and increases the potential for meeting or surpassing the overall performance standard of 110.

**NOTE:** The candidate may want to consider retaking an additional Component 1 exercise/part to maximize the potential for meeting or surpassing the performance standard of 110.

**Example Retake Scenario:** Using the National Board’s score calculator, the candidate decides to measure the impact of an increased score on Exercise 1 and Exercise 2.
Scenario 2

The example presented below represents a scenario where the portfolio section average score of at least 1.75 is not met.

<table>
<thead>
<tr>
<th>Portfolio Section</th>
<th>Assessment Cycle</th>
<th>Highest Unweighted Score (HUS)</th>
<th>Scaling Weight (SW)</th>
<th>Weighted Scaled Score (HUS x SW)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Component 2: Differentiation in Instruction</td>
<td>2016 - 2017</td>
<td>2.125</td>
<td>6.274</td>
<td>13.332</td>
</tr>
</tbody>
</table>

Component 2 Feedback Statements:
- You may wish to provide clearer evidence of your insight into student learning through your recognition of students’ individual learning differences.
- You may wish to provide clearer evidence that you set appropriate goals for student learning and connect those goals to differentiated instruction and individual student needs.
- You may wish to provide clearer evidence that you give appropriate individual feedback and next steps to each student.
- You may wish to provide clearer evidence of your ability to engage in reflective thinking about how your instruction is differentiated to meet the needs of individual students.

| Component 3: Teaching Practice and Learning Environment | 2016 - 2017 | 1.000 | 12.548 | 12.548 |

Component 3 Feedback Statements:
- You may wish to provide evidence that you understand child development and have insight into student differences and learning motivations.
- You may wish to provide evidence that you foster an equitable setting that provides a safe, intellectually challenging environment for the students.
- You may wish to provide evidence of your knowledge of the subject as you appropriately design and deliver your classroom lessons.

| Component 4: Effective and Reflective Practitioner | 2016 - 2017 | 2.000 | 6.274 | 12.548 |

Component 4 Feedback Statements:
- You may wish to provide clearer evidence of knowledge of your students through analysis and discussion of prior-year student assessment data, collected observational data, and relevant information obtained from families and colleagues.
- You may wish to provide clearer evidence that you apply knowledge gathered about the students when establishing learning goals and when planning instruction.

Portfolio Section Average Score: 1.708

The candidate earned a portfolio section unweighted average score of 1.708 and did not meet the minimum unweighted average score of 1.75 required on the portfolio section. The candidate must retake one or more portfolio components.
To determine which portfolio components to retake, the candidate would consider the steps described below:

**Step 1: Determine how many points you need to increase your portfolio section average score to meet the requirement of at least 1.75, keeping in mind that a score of 2.75 is the lowest rubric score in the range of clear evidence of accomplished teaching practice.**

In order to achieve a 1.75 average score, you need to earn a total score of 5.25 on the three portfolio components (5.25/3 = 1.75).

*Example:* This candidate earned a total portfolio section score of 5.125 (2.125 + 1.000 + 2.000). This candidate would need to earn at least 0.125 points (5.25 – 5.125 = 0.125) to achieve the minimum average score of 1.75 required on the portfolio section. Keep in mind that 1.75 represents only *limited* evidence of accomplished teaching and is not necessarily sufficient to achieve certification. This candidate would likely benefit from banking the higher scores received on Components 2 and 4 and retaking Component 3.

**Step 2: Estimate your possible unweighted rubric score increase for each component in the portfolio section.**

Determine a *reasonable* score increase only after careful consideration of your original performance and a realistic assessment of how much you can improve the qualities of evidence to meet the Standards measured by the portfolio components.

- Component 3 had a rubric score of 1.000. The candidate estimates a reasonable score increase of 1.000, which will raise the rubric score to 2.000.
- If the candidate achieves this increase, the portfolio section average score will increase to 2.042, which exceeds the minimum score requirement of 1.750 and increases the potential for meeting or surpassing the overall performance standard of 110.

**NOTE:** The candidate may want to consider retaking an *additional* portfolio component to maximize the potential for meeting or surpassing the performance standard of 110.
Example Retake Scenario: Using the National Board’s score calculator, the candidate decides to measure the impact of an increased score on Component 3.

Portfolio Section Average Score: 2.042

Total Weighted Scaled Score: 51

Score Requirements | Highest Score | Met Score Requirement?
-------------------|---------------|-------------------------|
Assessment Center Section Average Score of at least 1.75 | 0.000 | No |
Portfolio Section Average of at least 1.75 | 2.042 | Yes |
Scenario 3

The example presented below represents a scenario where the overall performance standard of 110 is not met. The candidate earned a total weighted scaled score of 103 and did not meet the performance standard of 110. The candidate met the assessment center and portfolio section requirements, but the candidate must still retake one or more parts of Component 1 and/or one or more portfolio components in order to increase the total weighted scaled score to meet the performance standard of 110.
To determine which components/part to retake, the candidate would consider the steps described below:

**Step 1:** Determine how many points you need to increase your total weighted scaled score to meet or surpass the requirement of at least 110.

*Example:* This candidate earned a total weighted scaled score of 103. This candidate would need to earn at least 7 more weighted scaled score points to achieve the performance standard of 110.

**Step 2:** Estimate your possible unweighted rubric score increase for each component.

Determine a *reasonable* score increase only after careful consideration of your original performance and a realistic assessment of how much you can improve the qualities of evidence to meet the Standards measured by the components.

- Component 1 Exercise 3 had an unweighted rubric score of 2.000 that equaled a weighted scaled score of 5.576. Component 4 had an unweighted rubric score of 2.000 that equaled a weighted scaled score of 12.548.
- The candidate estimates a reasonable unweighted score increase of .750 for Component 1 Exercise 3 and an increase of .750 for Component 4, which will raise both the unweighted rubric scores to 2.750 and the weighted scaled scores to 7.667 and 17.253, respectively.
- If the candidate achieves both increases, the candidate’s total weighted scaled score will increase to 110, achieving the total weighted scaled score requirements of at least 110.

**NOTE:** The candidate may consider retaking an *additional* Component 1 part and/or an additional portfolio component to maximize the potential for meeting or surpassing the performance standard of 110.
Example Retake Scenario: Using the score calculator, the same candidate measures the impact of an increased score on Component 3.

For all retake decisions, consider these additional steps:

Step 3: Assess your personal strengths and weaknesses relative to each of the components and/or parts of Component 1.

Identifying your personal strengths and weaknesses will allow you to make informed choices about the retake process. The following questions may assist you when considering next steps:

- Do you feel more comfortable responding to constructed response items/exercises or selected response items?
- Have you identified strategies to help you prepare for a timed assessment?
- What areas within your content do you feel you need to improve upon? Do you feel confident about your content knowledge across the entire developmental level for the chosen certificate area?
- When comparing each of your portfolio responses to the rubric for the portfolio component, do you understand why your response received the score it did? If you readily recognize what evidence was not presented in your response, this component may be a good retake choice.
- Do you have strategies for improving your level of performance on portfolio components based on your understanding and evaluation of the rubrics?
Step 4: For portfolio components, read any standardized feedback statements on your score report to gain insight about how to improve your performance.

Feedback statements identify aspects of your component that may be improved with evidence that better demonstrates the Five Core Propositions, your Standards, and the scoring rubric. See "Understanding the Standardized Feedback Statements for Portfolio Components" in this document for more information.

Step 5: Solicit feedback from colleagues on your portfolio components.

You may want to have a mentor, fellow candidate, or National Board Certified Teacher provide constructive criticism on your portfolio components and assist you in determining which component or components to retake.

The information presented in this Scoring Guide is intended to help you gain insight into your performance. National Board assessors, particularly National Board Certified Teachers, may be willing to provide supportive, constructive feedback on portfolio components before candidates submit those portfolios for scoring. However, you should not rely on the opinions of support providers, professional colleagues, or others who may have served as assessors. When reviewing candidate performances outside of formal scoring sessions, assessors are not permitted to predict what scores those performances might receive.

Step 6: Consider other personal factors that may affect your choice of which components and/or parts of Component 1 to retake.

Ask yourself the following questions to help make a decision:

- **Are you still teaching in the same certificate area?**
  If your teaching assignment has changed since your initial certification attempt and you are retaking a portfolio component, you will need to borrow a class that falls within the age range for the certificate area.

- **Are your professional and personal obligations likely to increase, decrease, or remain the same across the five-year window?**
  Consider your time commitments, including personal, social, professional, and household responsibilities. Understanding your time commitments can help you determine when you will have enough time to retake components.
Should you retake more than one component in a single year?
You must attempt each of the four components within the first three years of your candidacy. You should consider the time commitment that is needed compared with your obligations. If your obligations will be especially heavy during the current school year, it might be better to wait until the following year to apply to take/retake one or more components. Cost is another factor to consider. If you apply and pay the fees for multiple components but don't have time to complete them all during the cycle in which you apply, you will forfeit the fee for the uncompleted component(s).

Rules for Retaking Portfolio Components
If you choose to retake a portfolio component, you will need to review the General Portfolio Instructions and component instructions. Keep in mind the following retake rules for preparing and submitting a classroom-based portfolio component:

- The Contextual Information Sheet may remain the same if it accurately describes your current teaching context.
- Descriptive aspects of your teaching context in the Written Commentary and some forms associated with the component may remain the same; therefore, your retake submission may have some similarities to the Written Commentary and forms you previously submitted in the area of instructional context.
- Descriptive aspects of your lesson or assignment in the Written Commentary and some forms associated with the component may remain the same because you may use the same lesson or assignment you previously submitted. However, if you do submit the same lesson or assignment, all work must be completed within the 12 months prior to the opening of the ePortfolio Submission Window as described in the Guide to National Board Certification. You should carefully consider whether this lesson or assignment allows you to provide evidence that meets the performance standards for this component. You also need to consider whether using the same lesson or assignment will permit you to develop the required new and original analyses and reflections on your teaching practice and provide clear, consistent, and convincing evidence.
- Analysis and reflection aspects of your teaching practice in the Written Commentary must be completely new and original, not identical or amended versions from any component previously submitted. Consequently, a classroom-based retake component with cutting and pasting or rearranging of sentences and paragraphs from your previously submitted analyses and reflections would be an amended version that does not adhere to this rule. If you do not adhere to this rule, you will receive a not scorable (NS) for the component on your score report.
- The student work samples, video recordings, or assessment data contained in a retake component must be completely new and original and have occurred within the 12 months preceding the opening of the ePortfolio Submission Window, not identical or amended versions from any component previously submitted. If you do not adhere to this rule, you will receive a not scorable (NS) for the component on your score report.

Retake portfolio components are compared to your previously submitted, corresponding portfolio components. If a retake portfolio component does not adhere to the retake rules, you will receive a not scorable (NS) for the component on your score report.
Registering for the Next Cycle

Register for the next assessment cycle and keep your contact information updated by accessing your National Board account. For information on retake fees and deadlines, please review the Guide to National Board Certification.

Filing an Appeal

Candidates who wish to file an appeal should review the appeal process found in the Appendix.
Next Steps

As you move forward with the certification process and in your career, please stay engaged with the National Board. It is important that you update your contact information as needed on your National Board account. The National Board will keep you updated with developments affecting the certification process and National Board Certified Teachers.

Once you achieve National Board Certification, consider serving as a mentor to candidates or as an assessor.

If you have not yet achieved National Board Certification, we encourage you to continue with your commitment to this professional certification process.
Appendix: Appeal Process

Using the Score Verification Service

The Score Verification Service offers candidates the option to have one or more scores verified. A fee of $75 per score verified, which can be paid by credit card online, is charged to the candidate for this service. No explanation of the request is required and a response is guaranteed within 30 days. Specific score verification options include:

1. Verification that the typed response at the assessment center was successfully transmitted for scoring.
2. Verification that the handwritten response at the assessment center was received for scoring.
3. Verification that a portfolio entry was successfully transmitted for scoring.

NOTE: Score verification does not involve rescoring a candidate’s response and is only available for 30 days after score release.

Applying to Retake While Filing an Appeal

The National Board requires three months to investigate and resolve an appeal. You will not learn of your appeal’s outcome before the retake application deadline. If you choose to file an appeal and are eligible to retake, you are encouraged to simultaneously submit a retake application so as not to lose a year of retake eligibility.

Filing an Appeal

Before releasing score reports to candidates, the National Board carefully reviews the assessment materials, scoring system, and performance Standards applied during the scoring process to ensure that all scoring decisions are valid, reliable, and accurate. If you determine there is good cause to believe that your score is inaccurate, you may appeal a scoring and/or certification decision.

Filing an appeal requires payment of a $500 fee (by check or money order only), plus written documentation and supporting evidence from the candidate to justify the appeal. If the appeal is granted, the $500 fee will be refunded.

Establishing Good Cause

Under National Board policy, an appeal cannot be successful unless a candidate establishes good cause for reconsideration under the specific criteria established by the National Board. To establish good cause, the candidate must identify some particular circumstance or condition that renders the certification decision fundamentally unfair.

The reasons presented below do not establish good cause to file an appeal:

- Good cause will not be established if the appeal’s sole or primary basis is that the candidate or others disagree with either the certification decision and/or one or more portfolio component/constructed response item score(s). For example, it is not considered good cause if the candidate does not believe the score is accurate and/or that assessors overlooked or did not properly weigh evidence provided in a response.
▪ Good cause will **not** be established if the appeal’s sole or primary basis is that the candidate or others disagree with or seek an exception from the performance standard, or do not agree with some component of the procedures by which weighted scores are derived, such as the weights ascribed to items, the computation of the total weighted scaled score, or the scale. For example, a candidate cannot establish good cause by challenging the Standards, the portfolio instructions, or scoring processes.

▪ Good cause will **not** be established if the appeal’s sole or primary basis is that the candidate failed to understand or follow National Board policy and procedures, failed to understand or follow instructions published in the assessment materials, failed to submit required materials or documents, or failed to perform in a manner that would have best presented the candidate’s qualifications for certification. Please note that this includes, but is not limited to, the failure to report assessment center problems within seven days of a testing session. Candidates will not establish good cause by citing assessment center problems that were not previously reported in accordance with the procedures outlined in the **Component 1: Assessment Center Policy and Guidelines**.

▪ There are no circumstances under which a mere disagreement with the score given to a portfolio entry or assessment center exercise on an assessment will constitute good cause or result in the award of additional “points.”

▪ This policy applies regardless of how close a candidate comes to achieving certification.

**Procedure and Timeline**

Candidates who wish to submit a letter of appeal must follow the instructions below:

▪ Send a letter with the filing fee of $500 (personal check, institutional check, or money order payable to the National Board) to:

  **National Board for Professional Teaching Standards**  
  **Attention: Certification Appeals**  
  **1525 Wilson Blvd., Suite 700**  
  **Arlington, VA 22209**

▪ Include in the letter all pertinent details supporting the appeal, as well as any supporting documentation. The letter and any supporting documentation should be specific, and only materials that are directly relevant to showing “good cause” should be included. National Board will not return any materials or release the name of any assessor.

▪ The National Board receives appeals only once a year for a period not to exceed 60 days following the release of scores. During that period, a candidate can appeal only a score or certification decision that was rendered during that specific score release. The National Board will not consider appeals filed for scores or certification decisions rendered during previous score releases. If a candidate has not filed an appeal by the appeal deadline, scores are considered final and are closed to subsequent appeal.
