

# Tips for Submitting Your Evidence as PDF Files for Mac Users

Follow the instructions below to convert a word processing file to a PDF and to combine multiple PDFs into a single file.

## Creating PDFs

Mac users can create PDFs directly from the operating system. To create a PDF:

1. Open your file and click "File" from the menu bar and select the "Print" option.

2. Click the "PDF" drop-down menu button and select "Save as PDF...".

3. Save as you normally would.

## Combining Multiple PDFs into a Single PDF

To combine multiple PDFs into a single file using Preview:

1. Open the PDFs you want to combine.
2. Click on the drop-down menu in the upper-left corner and select "Thumbnails" on each PDF.

A tray will open on the left-hand side of Preview, showing you the individual pages of your PDFs.

3. Select the thumbnails of the PDF that you want to combine from one file—use Command-A to select them all at once—and then drag these thumbnails pages *onto* the thumbnails of the other PDF.
4. Save as you normally would.
