Introduction

About the Partner Portal

The Partner Portal is an online system designed to efficiently support National Board partners. “Partners” are defined as non-candidates—including but not limited to Third-Party Payers (TPPs), Candidate Support Providers (CSPs), network users, and state agencies—who partner with the National Board to support candidates.

With the Partner Portal, partners—depending on their permissions—can do the following:

- access candidate information and certification progress (based on state, district, school, and information release questions)
- manage TPP funding with self-service options for
 - submitting purchase orders and tracking status
 - applying funds to candidate accounts
 - making changes to candidate funding
- access real-time financial reports

About this Guide

This guide explains the following:

- Using reports
- Candidate Information Reports
 - Detailed View
 - Summary View
- Common Report Filters
- Glossary of Report Fields

To get started using reports, visit the [Partner Portal Sign In page](#) to sign in to your account.

Using Reports

The Reports feature allows partners to get insights into their candidates. In this guide, the term “candidate” is used to denote a person that exists in the National Board candidate registration system. The candidates you have access to via the Partner Portal is determined by

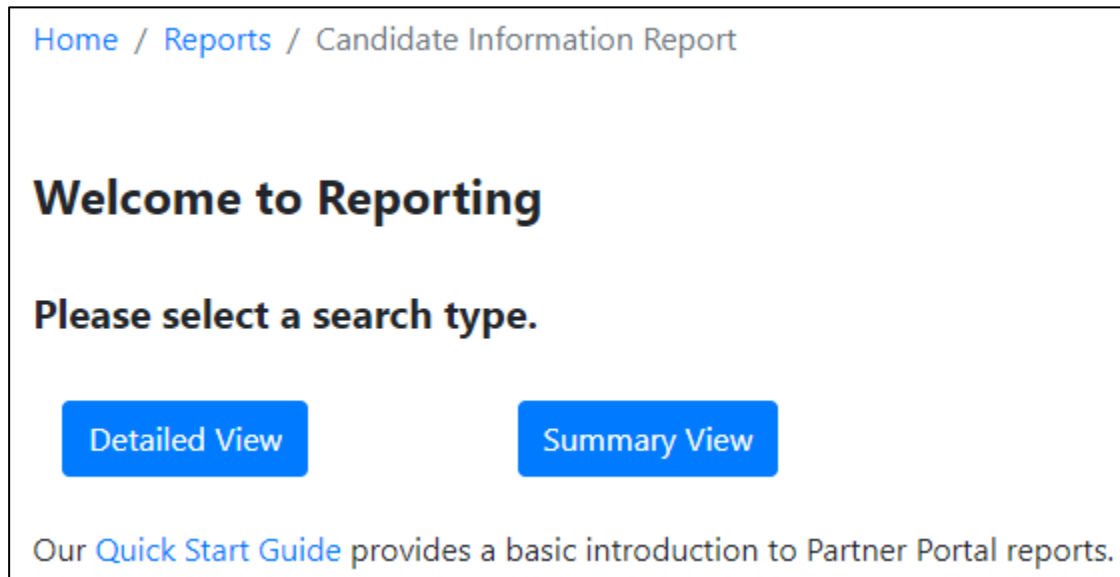

- your permissions and
- whether a candidate has elected to release their information to you.

A candidate is only visible in the system if they have elected to release their information. If you cannot see a certain candidate or their demographic information, please contact that candidate and ask them to update the information release questions in their National Board account in My Profile. Report data is automatically updated based on candidate activity within their account.

Candidate Information Reports

On the Reports tab of the Partner Portal, you can create reports, which can be downloaded as CSV files, to fit your organization’s needs.

In the left navigation, click “Reports” and then click the “Candidate Information Reports” icon. There are two options available for reporting in the Candidate Information Reports section: Detailed View and Summary View.

1. Filter the data by defining the criteria from the drop-down menu. Learn more about the available fields in the Glossary at the end of this guide.
 - a. Use the Filter to refine your search. Add as many fields as needed. Use the Delete button as necessary to remove a Filter.
 - i. **Operator** is defined as follows:
 1. Equal to: returns all candidates that are an exact match to the value
 2. Not equal to: returns all candidates that are different from the value

3. Contains: returns all candidates that contain the value
 4. Doesn't contain: returns all candidates that do not contain the value
 5. Starts with: returns all candidates that match the start of the value
- ii. **Value** is the text that you want to search for (e.g., candidate ID, state).
- b. Select a Filter match criteria.
- i. **Match All:** all conditions must be true to in order to find a match (e.g., selecting Name [Smith] and State [MD] will result in all candidates named Smith in MD)
 - ii. **Match At Least One:** if at least one condition is true there is a match (e.g., selecting Name [Smith], State [MD], all Smiths and all MD candidates will display)
- c. The default fields for every report are Candidate ID, first and last name, email address, ethnicity, and gender, but add or remove columns to your preference using "Add/Remove Columns." Select as many fields as needed.

2. Also use "Add/Remove Columns" dropdown to select columns you want to see/hide.

3. Once customized, click "Apply Filter" to generate the report.
4. If the filter results in multiple pages, use the navigation at the bottom left of the screen to go to previous/next pages.
5. Increase/decrease the number of rows displayed at the bottom right of the screen.
6. To export your report, click the "Download Data" button. All fields, regardless of what is selected, will export to an Excel spreadsheet.

Summary View

This report style defaults to displaying all candidates that you have access to, one row per candidate.

Note: The main search page for Summary View looks very similar to Detailed View except it defaults to displaying all of the candidates that you have access to instead of starting from scratch.
