

## CERTIFICATE EXPIRATIONS BY NBCT YEAR FOR MOC CANDIDATES

I am an NBCT whose certificate was set to expire in **2021** when I registered for and purchased MOC in 2020-21, or I will do so before the deadline, as my first and final attempt to extend my certification.

OR

I attempted Renewal unsuccessfully in 2019-20 and then registered for and purchased MOC in 2020-21 as my second and final allowed attempt to extend my certification.

If I submit MOC in 2020-21:	If I defer to 2021-22:
I will submit my <b>Maintenance of Certification</b> by the published deadline in 2021	I will submit <b>Maintenance of Certification</b> by the published deadline in 2022
My certificate will be extended to Dec. 31, 2021, so it will not lapse prior to 2020-21 Score Release	My certificate will be extended to 2022, so it will not lapse during the 2021-22 year
If I successfully maintain, I will earn a certificate that expires Dec. 31, 2026	If I successfully maintain, I will earn a certificate that expires Dec. 31, 2027
If I do not successfully maintain, I will have exhausted my attempts and my certification will lapse. I would have to begin the certification process anew to earn certification	If I do not successfully maintain, I will have exhausted my attempts and my certification will lapse. I would have to begin the certification process anew to earn certification

I am an NBCT whose certificate expires in **2022**, and I registered for and purchased MOC in 2020-21, or I will do so before the deadline, as my first of two allowed attempts to extend my certification.

If I submit MOC in 2020-21:	If I defer to 2021-22:
I will submit my <b>Maintenance of Certification</b> by the published deadline in 2021	I will submit <b>Maintenance of Certification</b> by the published deadline in 2022
	My certificate will be extended to Dec. 31, 2022, so it will not lapse prior to 2022 Score Release
If I successfully maintain, I will earn a certificate that expires Dec. 31, 2027	If I successfully maintain, I will earn a certificate that expires Dec. 31, 2027
<p>If I do not successfully maintain, I am eligible for a second attempt in 2021-22. If I register for MOC in 2021-22:</p> <ul style="list-style-type: none"> <li>• My certificate will be extended to Dec. 31, 2022, so it will not lapse prior to 2022 Score Release</li> <li>• I will submit Maintenance of Certification by the 2022 submission deadline</li> <li>• If I successfully maintain, I will earn a certificate that expires Dec. 31, 2027</li> <li>• If I do not successfully maintain at that time, I will have exhausted my two attempts and my certification will lapse. I would have to begin the certification process anew to earn certification</li> </ul>	<p>If I do not successfully maintain, I am eligible for a second attempt in 2022-23. If I register for MOC in 2022-23:</p> <ul style="list-style-type: none"> <li>• My certificate will be extended to Dec. 31, 2023, so it will not lapse prior to 2023 Score Release</li> <li>• I will submit Maintenance of Certification by the 2023 submission deadline</li> <li>• If I successfully maintain, I will earn a certificate that expires Dec. 31, 2028</li> <li>• If I do not successfully maintain at that time, I will have exhausted my two attempts and my certification will lapse. I would have to begin the certification process anew to earn certification</li> </ul>

I am an NBCT whose certificate expires in **2022**. I will neither complete MOC in the 2020-21 year or purchase MOC in the 2020-21 year and defer to 2021-22. Instead I will purchase and complete my first and final attempt in 2021-22.

I will purchase and submit <b>Maintenance of Certification</b> by the published deadline in the 2021-22 year
If I successfully maintain, I will earn a certificate that expires Dec. 31, 2027
If I do not successfully maintain at that time, I will have exhausted my attempts and my certification will lapse. I would have to begin the certification process anew to earn certification
