

Classroom Layout Form

(For information purposes only)

Please make a sketch of the physical layout of the “classroom” (i.e., setting in which the instruction took place) as it appears in the video recording. This sketch will provide evaluators with a context for the video recording because the camera cannot capture the whole instruction area at once. The sketch will not be evaluated. If video segments show different locations or positions of students or different classes, you may submit multiple Classroom Layout Forms to help evaluators understand the video.

It is helpful to evaluators for you to identify where particular students are located in the room by using the same student identifiers that you refer to in your Written Commentary (e.g., “the girl in the green sweater”). Do not refer to any students by last name. Only include students/adults for whom you have received executed Student or Adult Release Forms.
